Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 recites the limitation "said major dimension". There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, and 6-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Burkhart et al. (US 5538072).

Burkhart discloses an air conditioning apparatus having a cabinet containing a blower assembly, said blower assembly having an air blower for moving air through said cabinet in a predetermined direction and a housing in which said blower is located, an electric heater assembly projecting into said housing from a wall thereof in transverse relationship to said

Art Unit: 3742

blower with respect to said predetermined direction, said heater assembly being removably mounted with said wall.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9, 10, 17, 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Burkhardt et al.

Burkhardt discloses the air conditioning apparatus as claimed including *inter alia*, a cabinet containing a blower assembly, said blower assembly having an air blower for moving air through said cabinet in a predetermined direction and a housing in which said blower is located, an electric heater assembly projecting into said housing from a wall thereof in transverse relationship to said blower with respect to said predetermined direction, said heater assembly being removably mounted with said wall. Burkhardt does not explicitly disclose the curved portion of the wall on which the heater is mounted. Applicant does not show an unexpected result from having a curved wall portion in addition to a flat portion of the mounting wall. As such the limitation is considered to be a matter of design choice. It would have been an obvious matter of design choice to include a curved portion to the wall portion in order to fit a curved blower housing if necessary.

Allowable Subject Matter

Claims 11-16 are allowed.

Claims 2-5, 8, and 19-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
